

CORROSION PROTECTION SOLUTIONS FOR CRITICAL PIPELINE INFRASTRUCTURE

Protecting pipelines, with high-performance corrosion prevention technologies engineered for long-lasting durability and reliability.

About Us

Quanmin Plastic Int'l Co., KSA is an affiliate partner of Shandong Quanmin Plastic Co.,Ltd., China. To better serve the Middle East market, the company established its Saudi Arabia manufacturing facility equipped with advanced production technology for 2-ply and 3-ply PE inner wrap tapes, protective wrapping tapes, and compatible primers.

Products & Solutions

Cold-Applied Tapes

Our cold-applied tape system includes PE anti-corrosion tapes, visco-elastic tapes, paintable visco-elastic tapes, visco-elastic aluminum-coated strips, PVC Bitumen Tape/Integrated Wrapping Tape, petrolatum tapes, mechanical protection tapes, unbonded outerwrap, heavy tapes, seam tapes, and liquid adhesive primer used as primers for cold-applied tapes, along with other materials that enhance the cold-applied system.

Visco-Elastic Coating System

Polyethylene Tape Coating System

Intergrated Wrapping Tape/PVC Bitumen Tape

Petrolatum Tape Systems

Non-Bonded Outer Wrapping

UV-Resistant Tape

Heat-Shrinkable Coating

A coating material designed to protect irregularly shaped pipes and their circumferential welds from corrosion. The pre-coated structure and performance can be replicated through on-site application.

A variety of product configurations are available, which use cross-linked polyolefin backings and protective thermally activated adhesives to effectively bond metal substrates and common pipe coatings

Heat-Shrinkable Sleeve Systems

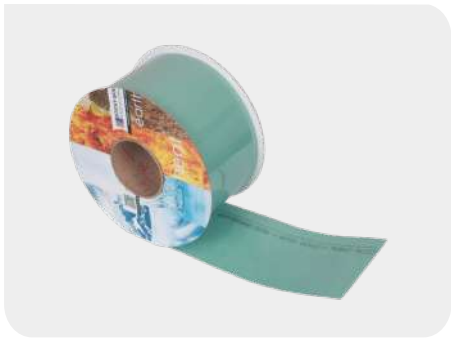

Polyethylene Repair Products

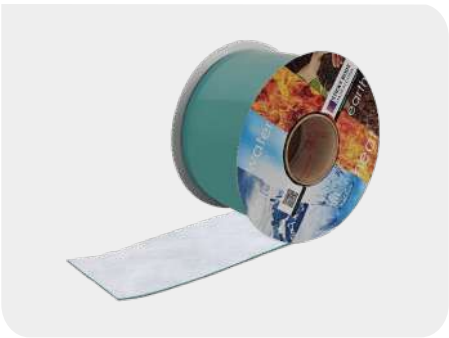

Primerless Twist Tape

VISCO-ELASTIC COATING SYSTEM

Visco-Elastic Tape

Paintable Visco-Elastic Tape

Visco-Elastic Aluminum-coated

Outer Wrap PVC Tape

Outer Wrap PE Tape

POLYETHYLENE - BUTYL RUBBER TAPE COATING SYSTEM

3-Ply Inner Wrap PE Tape

2-Ply Inner Wrap PE Tape

Outer Wrap PE Tape

Butyl Primer

Polyethylene Seam Tape

Butyl Rubber Filled Tape

PVC BITUMEN TAPE / INTEGRATED WRAPPING TAPE

PVC Bitumen Tape

Bitumen Tape PE

PP Fiber Woven Tape

Bitutape Primer

Corrosion Resistant Bottom
Paint Masterbatch

Moulding Putty

PETROLATUM TAPE SYSTEM

Petrolatum Tape

Petrolatum Putty

Petrolatum Jelly Paste

Outer Wrap PVC Tape

Outer Wrap PE Tape

HEAT-SHRINKABLE SLEEVE SYSTEM

3 Layer-Primercontaining
Wraparound Sleeves

2 Layer-Primerless Wraparound
Sleeves

Wraparound Sleeves PAS

Tubular Heat Shrinkable Sleeves

Liquid Epoxy Resin Primer

Butyl Rubber Filled Tape

Primerless Twist Tape

Coating Repair Patch

Melt Sticks

Mastic Filler

NON-BONDED OUTER WRAPPING

PP Fiber Geotextile

Non-Woven Polypropylene
Blanket

Our Capability

Today, we have developed over 30 pipeline coating products, including two-ply inner wrap PE tape, three-ply inner wrap PE tape, outer wrap PE tape, polyethylene seam tape, PVC bitumen tape, bitumen tape PE, PP fiber woven tape, visco-elastic tape, paintable visco-elastic tape, visco-elastic aluminum-coated strip, outer wrap PVC tape, PP fiber geotextile, non-woven polypropylene blanket, aluminum butyl tape, aluminum asphalt tape, petrolatum tape, primerless twist tape, 2layer-primerless wraparound sleeves, 3layer-primercontaining wraparound sleeves, wraparound sleeves PAS, tubular heat shrinkable sleeves, and more complementary materials.

Our products have undergone rigorous testing and comply with internationally recognized standards, including ISO, NACE, ASTM, DIN, and BSI.

Industry Experience & Global Presence

Comprehensive Product Solutions

Compliance & Standards Adherence

Customized Production & Certification Assurance

ISO Management System Certification

ISO 9001

ISO 14001

ISO 45001
